Submission

A PDF should be submitted before the deadline.

Rubric

Score	Criteria	Comment Requirements for peer review
Exceptional Work 100/100	- Identifies at least 3 models and data that could be used for each model. - Thoughtfully explains how models would be combined, data collection methods, and data refresh strategies. - Writing is clear and original. - Provides link to analytics success story. - May discuss challenges, legal/ethical considerations, or other relevant information to the problem.	What you thought the student did well and how they went above and beyond.
Meets Expectations 90/100	- Identifies at least 3 models and data that could be used for each model. - Mentions how models would be combined, data collection methods, and data refresh strategies. - Writing is clear and original. - Provides link to analytics success story.	Optional: can provide feedback if you have something notable to add
Reasonable Attempt 75/100	- Identifies 1-2 models and data that could be used for each model. - Missing 1-2 of the following: how models would be combined, data collection methods, and data refresh strategies. - Writing is incomplete and/or hard to follow. - Provides link to analytics success story.	Commentary on what you believe the person did that was incorrect.
Insufficient Effort 50/100	- Discusses 1 model and some data that could be used. - Missing 2 or more of the following: how models would be combined, data collection methods, and data refresh strategies. - Writing is incomplete and/or hard to follow. - Provides link to analytics success story.	Commentary on was missing or why effort was insufficient.
Unable to view/No submission 0/100	- Unable to view or off-topic submission	State what was submitted or if you were unable to open submission.
